Human Resource Management

## Introduction

# All-in-One HR & Payroll Software You Can Trust.

47PayDay is an all-in-one Human Resource Management (HRM) platform designed to streamline payroll and employee data management. It automates essential tasks like payslip creation, tax calculations, attendance monitoring, and compliance reporting delivering everything securely in one place.

With seamless integration to your existing systems, 47PayDay keeps your business organized, reduces costly errors, and saves valuable time. The result: smooth operations and accurate, on-time payments for every employee.

Let 47PayDay handle the paperwork, so your team can focus on what matters most your people.

# Your workforce keeps your business moving.

That's why we designed 47PayDay to make it easier for you to support them—every step of the way. From managing attendance and payroll to staying compliant and organized, 47PayDay helps your team work smarter, not harder. Because when your workforce thrives, so does your business.

## Why Choose Us?

### ISO-Certified Excellence

We're ISO 9001:2015 and ISO 27001:2022 certified — ensuring top-tier quality management and information security.

### Data You Can Trust

Secure, accurate, and audit-ready information at your fingertips.

### Local Insight, Global Standards

Built with deep understanding of local payroll needs, backed by global best practices.

### Custom-Fit Integration

Seamlessly connects with your HR, accounting, and ERP systems for smoother workflows.

### End-to-End Automation

Streamlines everything from employee data to payslips and tax reporting — no manual stress.

### Reliable Local Support

Get fast, knowledgeable assistance from a dedicated team that understands your market and your business.

### Enterprise-Grade Security

With role-based access, encryption, and secure storage, your payroll data is protected from breaches and misuse.

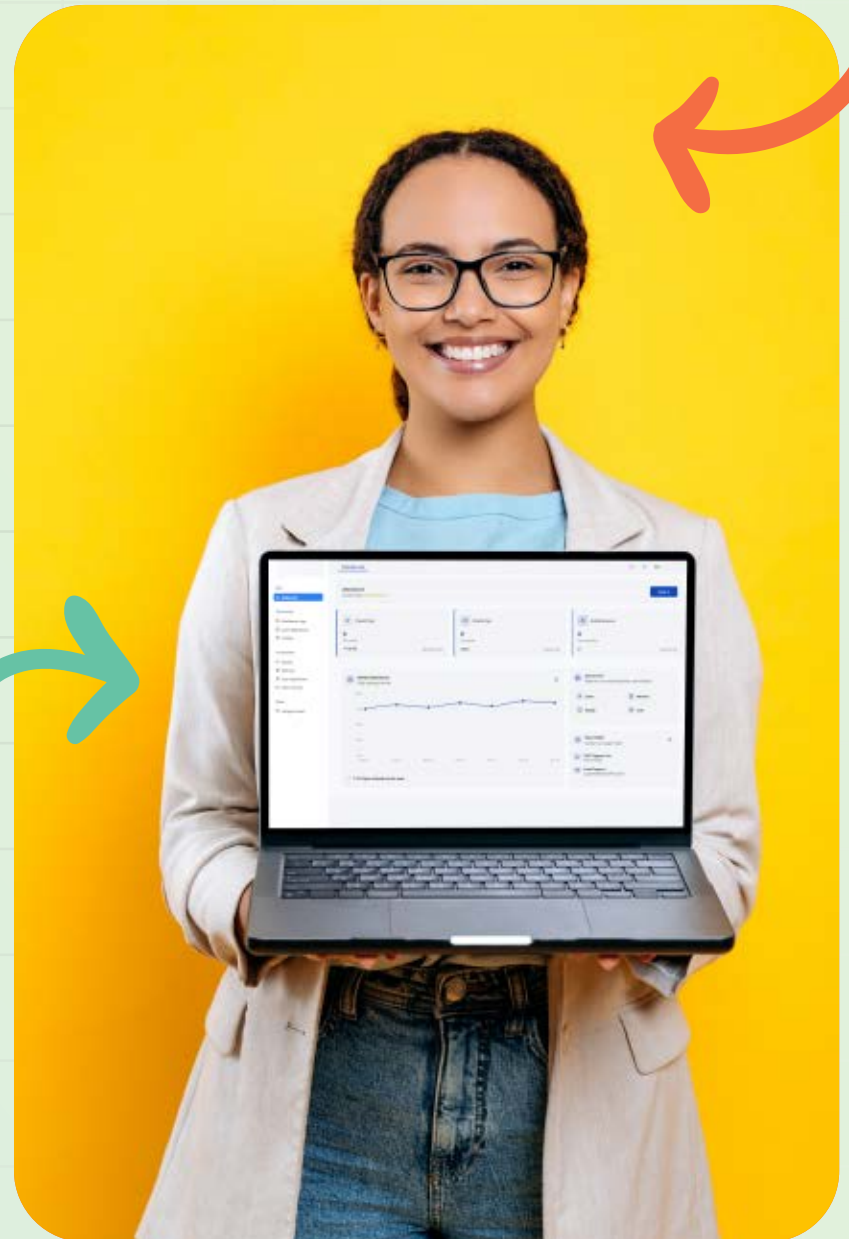

Our Features

47 PAYDAY

Features

# Revolutionising Workforce Productivity

Built with intention, 47PayDay brings clarity, control and confidence to the way you manage your workforce. Here's how we make that happen.

### **Payslip Generation & Distribution**

Enhance transparency and allows employees easy access to their salary details.

### **Security & Data Protection**

Uses encryption and access controls to protect sensitive payroll data from breaches and unauthorized access.

### **Tax Compliance & Deductions Management**

Ensure legal compliance and minimizes the risk of penalties for incorrect tax filings.

### **Integration with HR & Accounting Systems**

Integration with HR, accounting, and enterprise resource planning (ERP) systems to ensure enhanced data consistency and reduce manual work.

### **Compliance Reporting & Auditing**

Generate payroll reports, tax filings, and auditorials and provide up to date data during compliance and auditing processes.

### **Leave & Attendance Management**

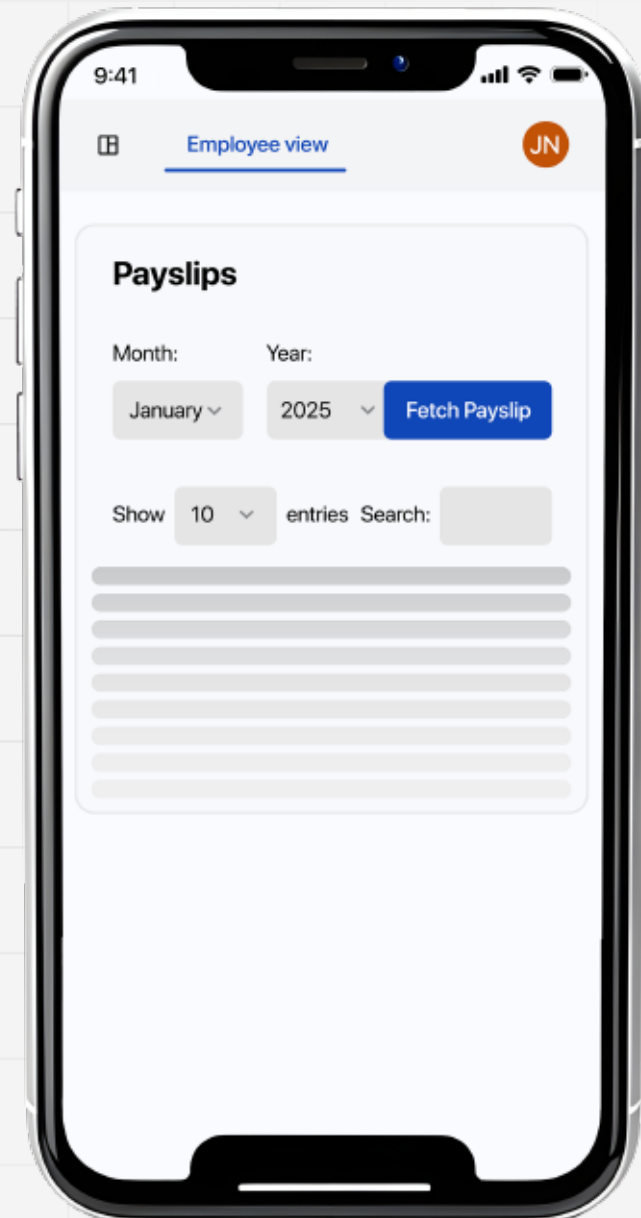

Track employee attendance, overtime, and leave records to adjust payroll accordingly ensuring fair compensation based on actual working hours and leave policies.

# Payroll Distribution

47 Payday simplifies the entire payslip process by automatically generating accurate, professional payslips for every payroll cycle.

Each payslip includes detailed breakdowns of earnings, deductions, taxes, and net pay ensuring transparency for both employees and management.

With secure digital delivery options, employees can access their payslips anytime, reducing administrative requests and improving trust in the payroll process.

Payslip Generation and Distribution

Human Resource Management

# Expense Management

Employees can easily log expenses by adding titles, categories, payment methods, amounts, and even attach receipts for proof. Managers get a clear overview of expense submissions with detailed records that improve accountability and reduce errors.

With real-time tracking and secure digital records, 47PayDay ensures expense management is transparent, accurate, and hassle-free for both employees and finance teams.

The image shows a smartphone screen with the 'Apply Expense' form. The form is titled 'Apply Expense' and has a back arrow on the left. It contains several input fields: 'Title' with a placeholder 'Add a Title', 'Category Type' with a placeholder 'Select Category Type', 'Expense Date' with a placeholder 'dd/mm/yyyy' and a calendar icon, 'Amount' with a placeholder 'Enter amount in KES.', 'Payment Method' with a placeholder 'Select Payment Method', and 'Location' with a placeholder 'Select a Location'. At the bottom, there is an 'Optional Attachment' section with a plus icon and a document icon. The phone's status bar at the top shows 100% battery.

Leave and Attendance Management

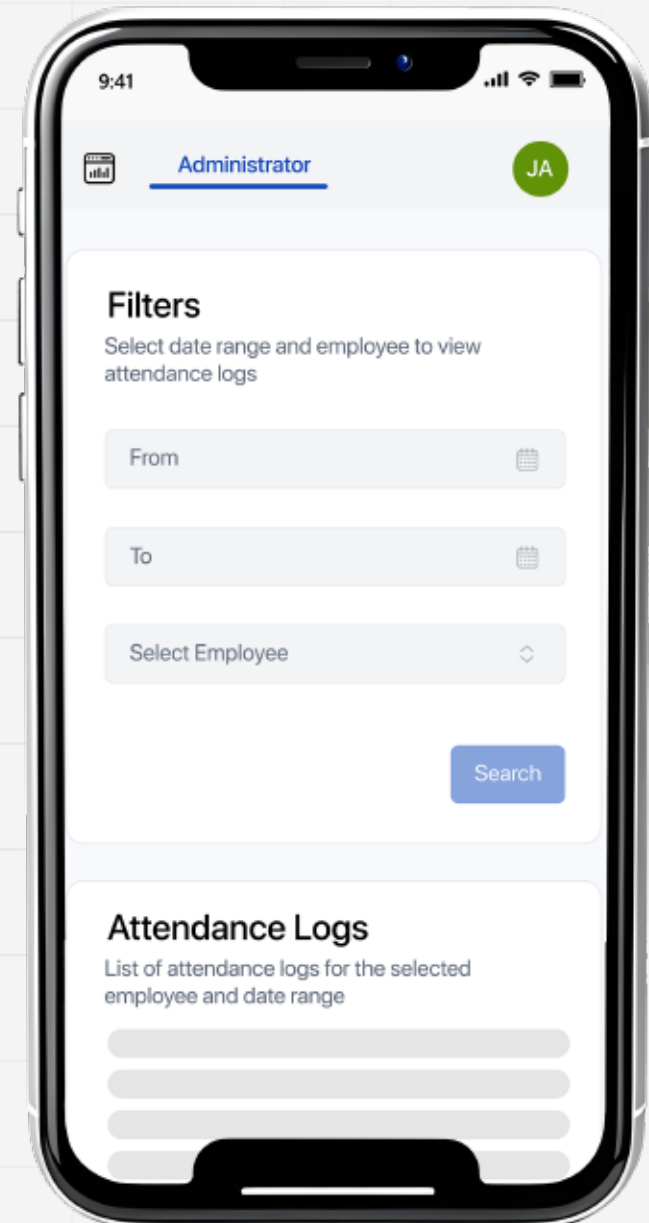

Human Resource Management

# Leave and Attendance Management

47PayDay gives you complete visibility and control over employee attendance, leave requests, and working hours. With built-in geo-fencing, the system ensures employees clock in and out only within designated work locations, enhancing accuracy and accountability. Attendance data is tracked in real time, capturing hours worked, approved leave, and overtime to ensure payroll reflects actual activity.

Automated calculations help reduce manual errors, while built-in policies support fair and consistent leave handling.

With self-service access, employees can apply for leave and view their balances easily, streamlining communication and saving HR valuable time.

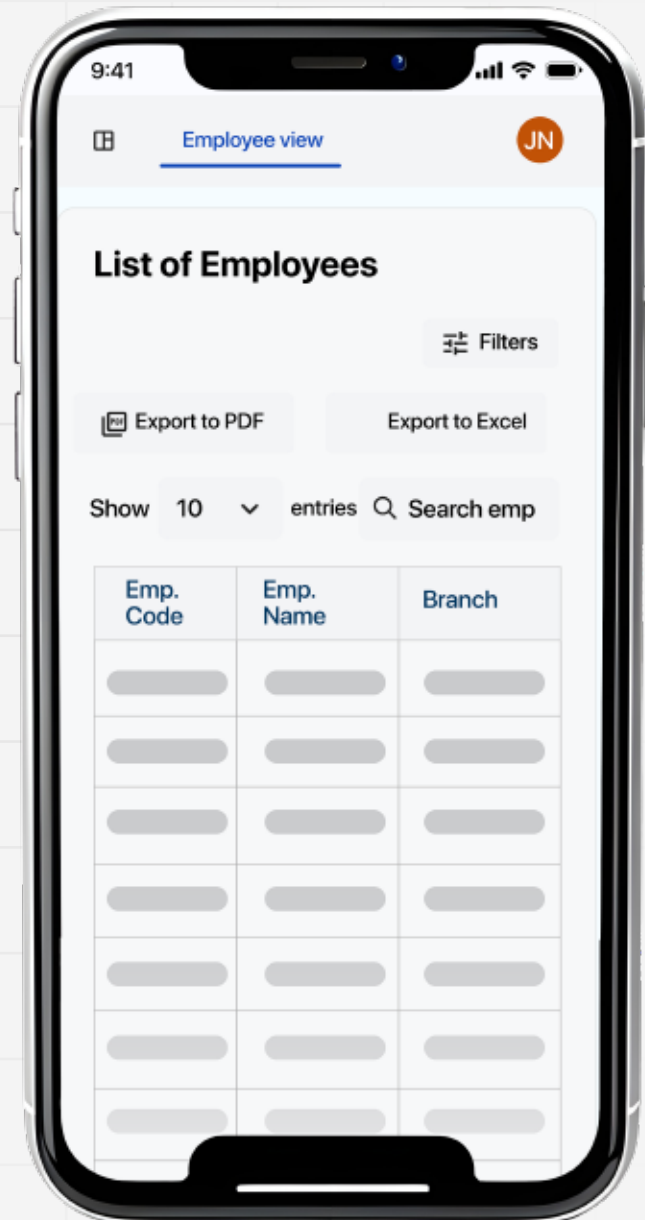

Employee Information Management

Human Resource Management

# Employee Information Management

47 Payday centralizes all employee data in one secure, easy-to-access platform. From personal details and job roles to salary structures and contract terms, every record is organized for quick retrieval and accuracy.

This reduces paperwork, eliminates duplication, and ensures consistency across HR and payroll processes. With structured employee profiles and built-in validation checks, your team can manage workforce data confidently, efficiently, and in full compliance with internal and regulatory standards.

Loan and Advance Request Management

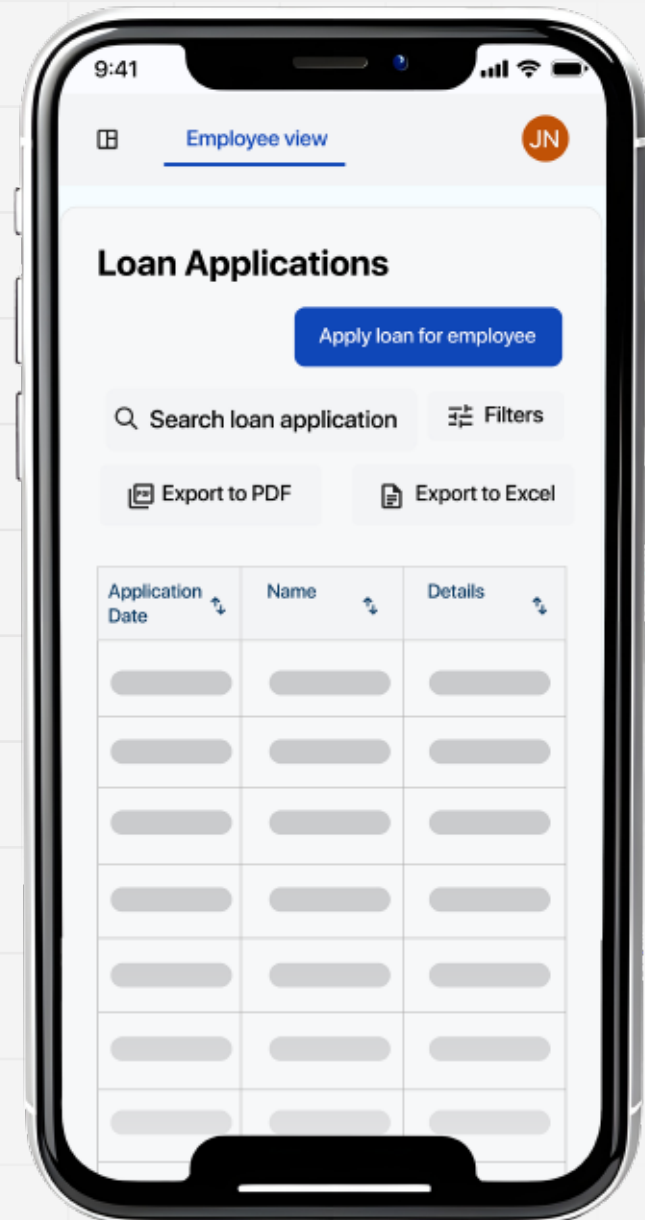

Human Resource Management

# Loan and Advance Request Management

Empower employees with a transparent and streamlined way to request salary advances or company loans. 47 Payday allows staff to submit applications digitally, track approval status, and understand repayment terms all within the system.

HR and finance teams can review, approve, and schedule deductions directly into payroll, ensuring accurate repayment tracking and compliance.

This promotes financial well-being among employees while keeping your records organized and auditable.

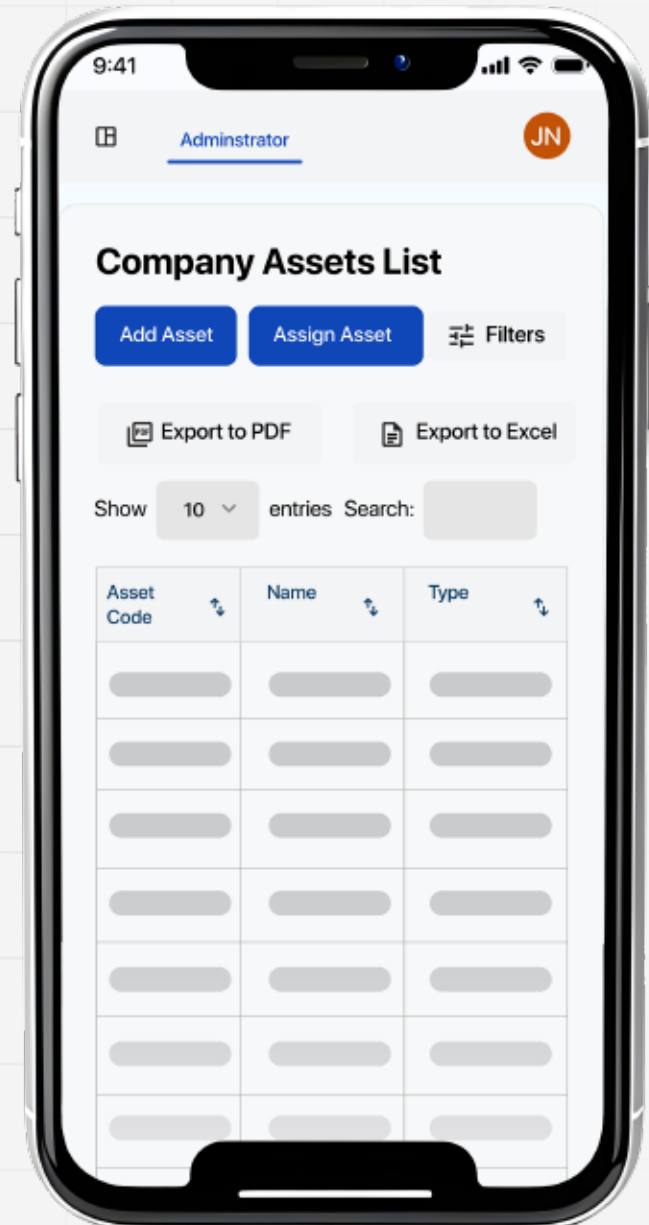

Assets and Inventory Management

Human Resource Management

# Assets and Inventory Management

47 Payday enables administrators to manage company-owned assets with ease and precision. From tracking asset ownership and assignment history to monitoring transfers and scheduling maintenance, the system offers full visibility into your asset lifecycle.

Detailed logs and reports help reduce misplacement, support timely servicing, and improve accountability across departments all in one centralized dashboard.

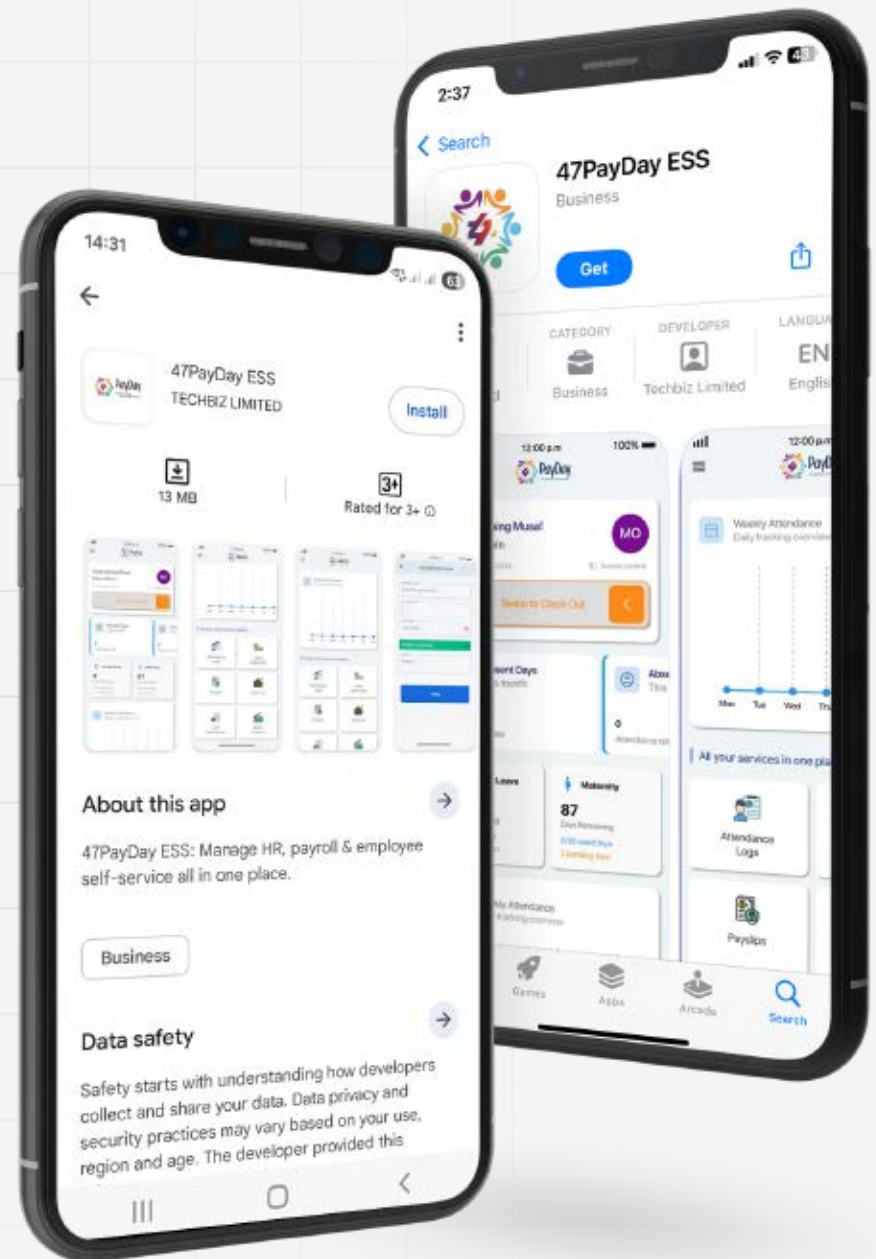

Cross-Platform Mobile App

Human Resource Management

# Cross-Platform Mobile App (Android & iOS)

47PayDay is available as a cross-platform mobile application on both Android and iOS. Employees and administrators can conveniently access the system anytime, anywhere—whether on smartphone or tablet. The app ensures seamless functionality across devices, supporting tasks such as managing profiles, tracking requests, and staying updated with company processes on the go.

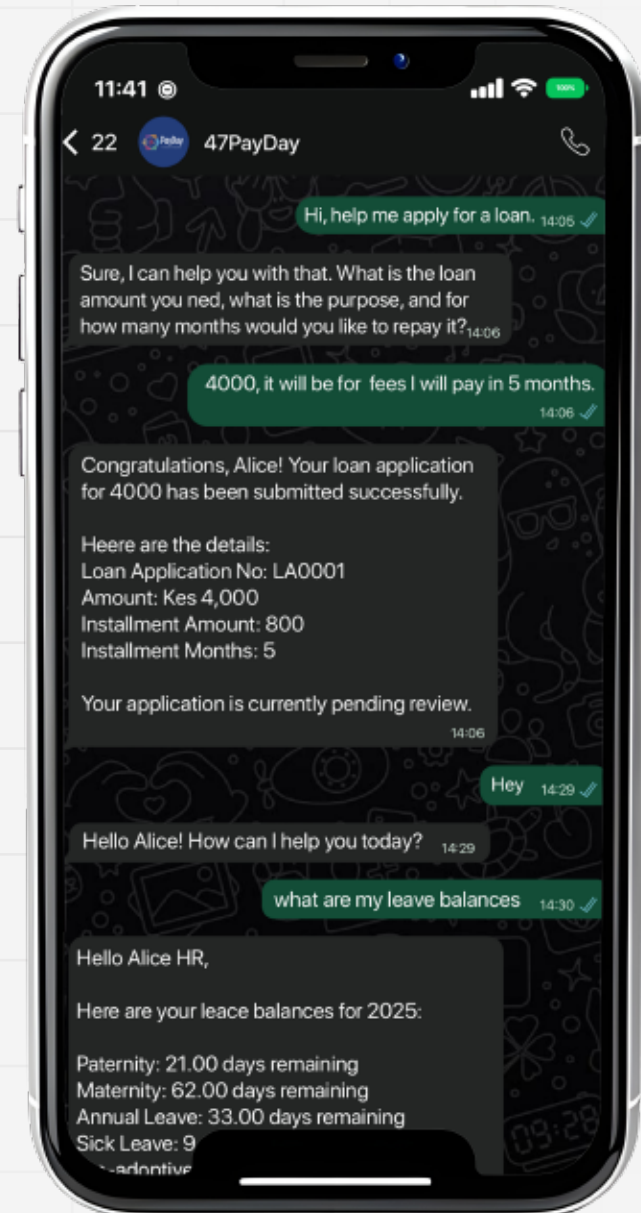

With full mobile compatibility, 47PayDay enhances accessibility, flexibility, and efficiency, keeping your workforce connected no matter the platform.

# 47PayDay WhatsApp Self-Service

47PayDay now empowers employees with a convenient WhatsApp Self-Service feature. Employees can easily view their leave balances, apply for leave, request loans or salary advances, submit expenses, and instantly access their payslips for processed payroll—all within WhatsApp.

This feature streamlines everyday HR requests, minimizes delays, and enhances efficiency, giving staff quick and familiar access to essential workplace services.

Client Testimonial

47 PAYDAY

## Client Testimonial

# What Our Clients Say

"47 Payday has completely transformed how we manage our payroll and HR operations. What used to take days now takes minutes with zero errors and complete peace of mind. The system is reliable, secure, and tailored to the realities of a growing company like ours. We finally feel in control."
