ABOUT TECHBIZ

As the leading technology solutions provider in East Africa since our inception in 2005, we have consistently demonstrated agility and a commitment to staying at the forefront of technological advancements. Our proactive approach ensures that we remain competitive, up-to-date, and the most reliable technology partner in the region.

As an ISO 9001-2008 certified company, we adhere to the highest standards of quality, underlining our dedication to excellence. This commitment has been recognized through multiple awards, further establishing our reputation for delivering distinguished services.

At Techbiz, we transcend the conventional role of solution providers. We empower businesses with innovative and scalable solutions, strategically implemented by our skilled professionals. Our focus is not just on meeting but exceeding our clients' unique requirements.

Partner with us to experience the intersection of reliability, innovation, and excellence in technology solutions in East Africa.

MISSION, VISION AND VALUES

Vision

To emerge as the preeminent choice for delivering inventive technological solutions and services across both public and private sectors, setting the benchmark for excellence and innovation in every aspect of our operations.

Mission

Transform ideas into reality by using smart & innovative technology solutions.

Integrity

Integrity is our digital DNA. We code with trust, ensuring the security and ethical use of technology in all our endeavors.

Customer Centricity

Our clients are at the heart of every line of code. We craft tech solutions with a keen understanding of their needs, making functionality and user-friendliness our top priorities.

Core Values

Innovation

We are the architects of change, constantly innovating and pushing the boundaries of technology to pioneer new solutions.

Excellence

Excellence isn't just a goal; it's our tech mantra. Every line of code reflects our commitment to delivering top-tier, efficient, and reliable tech solutions.

Data Analytics

CLOUD & ARTIFICIAL INTELLIGENCE

A flexible cloud platform that helps you grow with greater efficiency and be more responsive to change. With Techbiz Cloud Platform, you can be up and running fast, scale up or down as needed, and avoid high capital costs—paying only for what you use.

Our solutions include:

Techbiz CloudSync

Our Disaster recovery and backup solution allows your company to resume normal operations after a disaster by regaining access to your data and connectivity in compliance to your RPOs and RTOs

Cloud IaaS and PaaS

By using our pay-per-use Cloud model with Scalable resources, you can avoid the costs of maintaining an on-premise infrastructure. Our expert Engineers can assist you with consultation and cloud migration of your infrastructure.

Web Hosting as a Service

Using our scalable Cloud Storage, you can quickly publish and deploy your websites and web-based applications.

Hosted Applications

We offer a cloud-based application hosting service such as SAP on cloud, with seamless functionality, upgrades, simple integration and migration.

AI-as-a-service

Our solution seamlessly allows you to integrate artificial intelligence into your business. Harness the power of machine learning and advanced algorithms to elevate efficiency, automate tasks, and unlock unprecedented insights.

Knowledge-based System

Utilize expert knowledge to offer intelligent decision support, providing insights and recommendations that drive informed and strategic choices.

RESOURCE AUGMENTATION & DEVOPS

Elevate efficiency with our Resource Augmentation and DevOps services. Seamlessly integrate expert resources and adopt a dynamic DevOps culture for accelerated innovation and success.

Our benefits include:

Assurance

With our deployable team at your side, your digital projects are in capable hands. We understand that project scopes can evolve, and our dedicated and skilled team can adapt to it too.

Cost Saving

Outsourcing our skilled team of engineers from Silicon Savannah, not only brings world-class expertise but also offers significant project savings.

DevOps

Fast-track projects to market with our skilled DevOps consultants using Continuous Integration, Deployment, and Delivery techniques for streamlined configuration changes across environments.

Scalable Solutions

Whether you need a single specialist or a cross-functional team, we can swiftly assemble the right talent mix tailored to your project's unique requirements.
